RELAX

Learn to float

Bathing without feeling cold. Floating without exertion. It's all possible - with the most natural cure in the world. The thermal water contains salt and has body temperature. Sometimes it's as sparkling as champagne. Sometimes it feels like the Little Mermaid's own featherbed. The hot springs are alive with underwater melodies, lights, and colors. Learn to float at this magical place and grasp the true meaning of easy-going.

With **Liquid Sound®** the water comes alive. The pleasures of artistic bathing can be experienced at this unique place of adventures and relaxation. Ethereal concerts, sound and light - they all inspire the imagination and (en)lighten the body.

HEAL

The sauna

... there is more to it than just hot or cold.

In the sauna world energy is flowing, pores are opening and the body's own rhythm is stimulated. Spacious, tranquil, nature's own panorama. Or immerse in virtual 360° spheres in the "Fulldome" copula. Relax, relieve yourself of burdens. Enjoy the literary sauna in the Lektarium. And sometimes smile while sweating.
