COSMETICS - DR. HAUSCHKA

Certified organic and natural cosmetics.

Natural ingredients, selected medical plants, an original treatment concept and a central idea that inspires all of Dr. Hauschka's cosmetics and its concept: the skin has its own ability to regenerate and care for itself. Cosmetics are there to support it.

Cosmetic products by Dr. Hauschka strengthen the skin's own processes and guard it against external forces. Dr. Hauschka was awarded with the BDIH label "controlled natural cosmetics" and is joint-founder of the new standard for organic and natural cosmetics "NaTrue". Your Dr. Hauschka natural cosmetician welcomes you with an odorant footbath to all treatments. In relaxed lying position, you are now ready for a rhythmic flowing effleurage. Gentle movements with hands and brushes stimulate your lymph nodes. This cares for fluidity; the tissues are detoxified. After the treatment you will feel light and balanced - a liberating feeling!

AYURVEDA WELLNESS

AYURVEDA - the knowledge of a long and healthy life, is a holistic way of life that involves all areas of existence and includes principles of maintaining as well as restoring vitality.

Today, we tend to overload our everyday life with activities and information - this weakens our viability. Ayurvedic treatments and practices enable a long-lasting regeneration and strengthening of our vitality. The qualities of the prevailing human physique consist of 5 elements: earth, fire, water, air and aether fire. The constitutional types (dosha) that derive from that classification are: **Vata** (air, aether fire), **Pitta** (fire, water) and **Kapha** (earth, water).

In order to provide a special selection of oils that suit your individual needs, we rely on precious "KALARI" oils. Unlike the usual sesame oils, our oils display different qualities: Cooling/warming of the organism, harmonizing, reducing, soothing, vitalizing, nourishing. Our therapists will select the perfect KALARI oil according to your constitutional type.
