

## Liquid Sound Festival 2025

*A welcome message from Micky Remann, inventor of Liquid Sound® and cultural director of Toskanaworld-group:*

When autumn arrives, humanity divides into two groups.

How many? Two!

One group—the majority of the world's population—has no idea and will find it hard to believe that there are three thermal spas in Germany that host an exquisite underwater music festival at the same time. Between Saturday afternoon and Sunday morning, it brings together outstanding artists who introduce the half-dancing, half-dreaming audience to the experience of musical bathing. All night long!

The other group, however—a committed, steadily growing minority—has long since entered the traditional Liquid Sound Festival in their annual calendar. After Christmas, Easter, and the summer holidays, the Liquid Sound Festival always follows on the first weekend in November at the Toskana Thermen Bad Sulza, Bad Schandau and Bad Orb. Shortly afterwards, it's Christmas again.

That's how it has been for the past 23 years, and that's how it will be on the weekend of Nov 1-2, 2025.

The overview with some program highlights shows why it is worth attending, regardless of which of the two groups of people you belong to.

### **e.g. Bad Orb**

From the program lasting several hours, we highlight: [Beobê](#), a live act that alternately amazes and moves the Rhine-Main area with melodic electronic dance sounds. Then [Con:Trust](#) offers a harmonious contrast—two virtuosos who coax sounds from their accordions that one would never have thought possible from these instruments.

Here, too, amazement and movement are the order of the day, which also applies to the visual design by [VJ Elke Juladi](#).

When we say that the Liquid Sound Festival goes "all night long," we mean it. The Liquid Sound Club team puts together the program for the dream bathing time between 1:00 a.m. and 9:00 a.m., which is particularly popular with night owls.

This year's lineup includes: 2Reisende - Ben Brown & Sascha Lebemann, dadaBLEEP, Stefan Kreuzer.

**In summary:** Music in the spirit of the Liquid Sound Festival is a calm, varied flow that invigorates the mind and lets the body float. The longer this state lasts, the more the impression of living in a world without time pressure intensifies. To round things off, there is early morning mist music between the last dream in the deck chair and the first espresso in the bistro bar. Those who step out into what is likely to be a gray November morning after the festival will feel colorful and refreshed.

*Changes are possible – the complete program will be published here.*

## Tickets

### **Festival admission is included in regular spa admission**

As in previous years, regular spa admission applies to the Liquid Sound Festival, with no extra costs for guests. Day tickets for November 1 remain valid until 9:00 a.m. on Sunday morning. Tickets are not available in advance, but vouchers can of course be redeemed for admission to the festival.

### **Particularly good value: the late-night ticket!**

The later the evening, the more the motto applies: bathing is the new nightlife! That's why night owls and friends of the Liquid Sound Club can purchase a late-night ticket for **17 euros per person**. It is valid from 1:00 a.m. on November 2 and allows you to visit the entire Liquid Sound Club program until 9:00 a.m. The late-night ticket is only available at the box office from 1:00 a.m.
